HENDRICK'S SUCCESSOR MUST BE A PEDAGOGUE

The board of regents of the University of Nevada say they will elect a successor at the next meeting of the board, February 2. Several of the faculty have filed applications. The suggestion that Frank Norcorra be excellent timber for the position is not by the law, which specifies that applicants must have a teacher's certificate and at least five years' practical experience.

THAW'S INSANITY

to pay for his education abroad. Although profers of money by Thaw were refused, the boy at last came on to New York and went to Thaw's hotel, where it is alleged the assault took place.

Thaw, who is a member of a wealthy Pittsburg family, shot and killed Stanford White, a noted architect, in the midst of a crowd at Madison Square Garden roof garden in June, 1906. He was incited to act, he said, by the confession of his wife, Evelyn Nesbit Thaw, a chorus girl, made to him of her treatment by White previous to her marriage to Thaw.

(By Associated Press.)

PHILADELPHIA, Jan. 10.—Charged with aiding and abetting Harry K. Thaw in an alleged assault upon Fred Gump, Jr., in New York, and with attempted kidnapping, a man said to be George F. O'Byrnes was arrested at a railroad station as he was about to leave the city.

While admitting, according to the detectives, that he is acquainted with Thaw and that he had been with the Pittsburg in this city until last night, the prisoner denied that he is O'Byrnes or that he is the man wanted in New York. He said his name was Oliver Brower, that he was a Pittsburg salesman and that he had known Thaw for some time.

Barney Flood, a New York detective, stated that the description he had of O'Byrnes fits the prisoner in all details. Flood said that the police had found in the prisoner's pocket a telegram dated December 23 from the authorities of Long Beach, Cal., replying to a message alleged to have been sent by Thaw.

Fred Gump, Jr., who arrived here, could not positively identify Brower as the man alleged to be implicated with Thaw in the assault charges.

The prisoner was held under \$1200 bail for a further hearing next Friday.

In Brower's possession when he was arrested the detectives say they found letters addressed to Thaw from Gump asking for positions.

After further investigation, the detectives said that Thaw had remained at a hotel here Monday night.

It developed that the man arrested O'Byrnes, but Oliver Brower of Utica, an acquaintance of Thaw's. According to Frank P. Walsh, counsel for the Gump family, Thaw left in Brower's care a number of letters and documents, one being an agreement, unsigned, whereby young Gump set forth he had no objection to being whipped. It is now charged that Thaw lashed him three times with a whip Christmas night.

VILLA IS BUSY HIDING BULLION

FOLLOWERS PREDICT BANDIT WILL ATTACK CHIHUAHUA CITY AGAIN

(By Associated Press.)

EL PASO, Jan. 10.—Government agents claimed to have information from apparently reliable sources that Francisco Villa's main column was advancing toward Satevo, southwest of Chihuahua City, with the apparent intention of attacking the state capital, while General Francisco Murguía was in the vicinity of Jimmer and Parra.

Villa partisans admit that Villa was defeated by General Murguía at Jimmer, Friday, but say the Villa force there was comparatively small. Villa was in the mountains at the time, they say, hiding 400,000 pesos worth of silver bullion which had been taken from the mines in the Parra district. They say Villa will attack Chihuahua City again within a week.

The hall was beautifully decorated with flowers, and after the initiation the following program was rendered: Address, Mrs. Galvin; piano solo, Mrs. McLean; address, Mrs. Cochran; address, Mr. Galvin; vocal solo, Mrs. Simmons; address, Mrs. Wardle.

The program was followed by a presentation of flowers to Mrs. Stewart by Mrs. Mary Davis and a reception by Mrs. Stewart.

A past matron jewel was presented to Mrs. Galvin by Mrs. Pettygrove and Mrs. Galvin replied.

A vocal solo was rendered by Mrs. Guenet. Then came the presentation of a past patron's jewel to Mr. Cochran by Mr. Wardle and a reception by Mr. Cochran.

The evening was concluded by a delightful spread in the banquet hall.

BUFFALO BILL

(Continued from page one)

warfare of the southwest left him at its finish well known as an all around frontiersman, competent to advise, to guide and to lead. These qualities soon brought him to the attention of such distinguished commanders as Gen. W. T. Sherman, Lieut. Gen. Phil Sheridan and Generals Crook, Custer, Merritt, Carr, Royal, Miles, Dodge and others, and secured his appointment as chief of scouts in the United States army during its numerous Indian campaigns.

His career in this line identified him with the great fighting epoch between the red man and the white man waged by Gen. Sheridan after the civil war that temporarily ended in 1876, but was effectively finished in the ghost dance war in the decisive battle of Wounded Knee in 1890-91 campaign with the northern Sioux.

During the construction of the Union Pacific railroad young Cody attached himself to a camp of United States troops protecting the laborers and won his sobriquet of "Buffalo Bill" by taking a contract to supply the entire force with fresh buffalo meat for a certain period, killing under one contract 4280 buffaloes. On one occasion he killed the noted Cheyenne, Chief Yellow Hand, in the presence of Indians and troops.

INSANE NEGRO BOY FOUND WITH GUN

A colored boy who formerly was employed as elevator boy at the Bank building, was arrested this noon on a charge of disturbing the peace by visiting the high school and behaving in a peculiar manner. When taken to the police station a gun was found hidden up the back of his coat. It required all the strength of four officers to disarm the prisoner, who struggled and dealt the officers vicious blows.

It developed that the fellow, who is known as Calvin, was brought home recently from the Napa insane asylum.

SHOWING IMPROVES IN THE NORTH STAR

The story of the find in the North Star mine, reported in the Bonanza yesterday, has been confirmed by later developments. The ledge is 18 inches wide and a foot of it is reported by Superintendent Lowe to be high grade, while all is in the shipping class. A streak several inches wide on the hanging wall is the best portion of the vein. It assays \$69 in gold and 274 ounces silver. The quartz shows chalcopyrite, stannite and ruby, together with a very rare occurrence in this camp, silver bromide.

This discovery was made in a bed of trachyte on the 1050 level out toward the Belmont. The North Star has 400 feet in one direction and 600 feet in the other to drift on the vein.

Lovers of basketball should turn out en masse tomorrow evening for the games to be played in the high school gymnasium between the Oakland champions and selected teams from Tonopah. The visitors played last evening at Big Pine, where, in an almost perfect game, they scored twice with the following results: Oakland 66, Bishop 21; Oakland 60, Big Pine 27. The Oakland men hold the world's championship in their class and their play is filled with brilliant surprises and excellent execution.

HIGH VALUES FOUND IN HALIFAX DEPTHS

By mere accident a recent shipment from the Halifax mine ran \$70 a ton. It was not the intention of the management to ship ore above \$40 a ton, which is about the highest grade that can be worked with the lowest proportion of loss.

The heaviest enrichment in the vein is in seams, where the metal is difficult to distinguish from the matrix rock, the latter being milling grade.

Recently the company picked up a leader vein, which is trending to the northeast at a slight angle from the main vein. It is now about sixty feet from the mother lode and if it continues its present trend it will be followed for 1000 feet in Halifax ground. It is being stoped for a width of four feet. Shipments are being kept up to the limitations set by the West End mill.

Due to broken lashings of old timbers sent up the Halifax shaft yesterday afternoon, one of the timbers caught a wall plate and three eight-by-eight timbers and one gudge were broken. The shock of the sudden stop caused the shive wheel to be drawn out of position.

The damage, outside of loss of time, will not amount to over \$50. The shaft will resume operations tonight or tomorrow, as the damage has nearly all been repaired.

Let the college spirit thrill you again when you see "The College Town" Friday and Monday nights. Adv. J10-11

AMUSEMENTS

A. & B. THEATER

Of all stars hard to please with a film play, Clara Kimball Young ranks with the first. That is why she has been so long away from the screen. Her last production was "The Feast of Life," written expressly for her by Frances Marion, and now she will be seen in a story written by Paul West called "The Dark Silence," which Miss Young personally selected because she thought it gave her enough opportunities to do extraordinary work, just the kind of work she has always been noted for. It will be shown at the A. & B. theater tonight and is the product of the World Film corporation. Tomorrow, a Bluebird feature entitled "Saving the Family Name," and a two-reel Keystone comedy, "The Hunt."

BUTLER THEATER

The time has arrived for which every picture fan has been waiting, for tonight the long heralded appearance of the popular Clara Kimball Young, in the first of her own company's production, "The Common Law," by Robert W. Chambers, is scheduled for the Butler. Miss Young has been working on this picture for several months, having severed her connection with the World Film corporation nearly a year ago. The story is beautifully worked out in seven reels. It will be a two-hour show, the first one at 7 and the second at 9. During the first show a five-piece orchestra, with Julius Goldsmith and "Dutch" Parker at the helm, will entertain. Tomorrow, Florence La Badie in "Saint, Devil and Woman."

GRAND OPENING

Paddy McGuinnis has purchased a half interest from Johnny Hill in the Midway bar. A grand opening will take place Wednesday evening. Lunch will be served. All are invited. Mr. McGuinnis has been in the mining and saloon business in Tonopah for the past ten years and for a long time was connected with the Miners' Exchange. Adv. J8-13
